

FOR IMMEDIATE RELEASE

DATE: MARCH 13, 2020
MEMO TO: COMMUNITY PARTNERS, STAKEHOLDERS
FROM: BRANDON ARNETT, CEO
SUBJECT: CSCL'S RESPONSE TO COVID-19

Dear community partner,

We are reaching out to you today to let you know what steps CSCL is taking to ensure the safety of those who access our services and those who work within them alike. We are constantly monitoring the situation and following all directions given by the Province and its authorities.

At this time, we have notified all employees that they will be required to self-isolate for 14 days upon return to BC from travel outside of Canada. We are working diligently internally to ensure the disruptions to service delivery are minimal.

We are taking all added measure for health and safety including increased vigilance, increased access to hand sanitization and education on had cleanliness, increased cleaning of our buildings and added education for employees and individuals.

We know that the risks of COVID-19 are currently low in our community; however, we are taking all measures to be proactive rather than reactive. We have not taken any measures to close any of our programs or services; however, this is subject to change as risks change as does the direction given by the Province.
